RAM 1500 New Body Style

Air Lift 1000 HD Combo Kit Features

NEW combo kits feature an Air Lift 1000HD Air Spring kit paired with a LoadController Compact single-path compressor system. These new Ram-exclusive kits come with everything needed to tow and haul safely and comfortably with in-cab control, conveniently packaged together.

- Up to 2,100 lbs. of load-leveling capacity*
- Air adjustable from 5 to 50 PSI
- Schrader valve for secure air line connection
- Tough molded polyurethane construction
- 1000 HD kit requires no drilling into the vehicle's frame however special tools will be required for 25850 installation
- Includes a mounting pod or can be flush mounted. Also fits in any 2-1/8" gauge pod
- Single-path control sets both air springs to the same pressure
- Low-pressure sensor automatically activates the air compressor if air spring pressure falls below the minimum 5psi
- Includes everything you need for a complete installation — air springs, air lines, standard-duty compressor, wiring harness, gauge with pod, fittings and hardware
